About Indo Swift Exports

India-based manufacturer & exporter of agricultural implements

Indo Swift Exports Private Limited is an India-based manufacturer and exporter of agricultural implements and equipment. We supply high-grade rotavator blades, land levelers, tyne & disc ridgers, disc ploughs, cultivator parts and irrigation pumps to dealers, distributors, importers and equipment businesses across international markets.

Our team supports every stage of the buying process — from product specification and sourcing to packaging, documentation and shipment coordination — so that bulk and repeat orders move smoothly from inquiry to delivery.

18+ Product Categories	13+ Export Partners	100% Quality Focus	24h Inquiry Response
----------------------------------	-------------------------------	------------------------------	--------------------------------

Why Buyers Choose Indo Swift Exports

- **Quality Assurance** — Every blade and implement is checked for material strength, precision and finish before dispatch.
- **Transparent Communication** — Clear pricing, honest timelines and regular updates throughout the order process.
- **On-Time Delivery** — Organized packaging and shipment planning for reliable, on-schedule international delivery.
- **Export-Ready Documentation** — End-to-end support with documentation, packaging and shipment readiness for smooth customs clearance.

Land Levelers & Ridgers

Field preparation and ridge/furrow-formation implements

LAND LEVELER

Heavy Duty Land Leveler

Rugged tractor-mounted land leveler for field preparation and flood-irrigation applications. Special-steel blade in 6, 7 and 8-foot working widths.

LAND LEVELER

Laser Guided Land Leveler

Laser-guided land leveler designed to improve field uniformity and irrigation efficiency for precision land preparation.

RIDGER

Tyne Ridger

Tyne ridger for economical ridge and furrow formation in prepared soil, suited to row-crop seedbed preparation.

RIDGER

Disc Ridger

Adjustable disc ridger for forming ridges and seedbeds with controllable width, height and depth for varied crop requirements.

Ploughs & Tillage Implements

Disc ploughs engineered for varied soil conditions

DISC PLOUGH

Reversible Mounted Disc Plough

Hydraulic reversible disc plough with adjustable penetration and disc position for efficient, uniform soil work across the field.

DISC PLOUGH

Mounted Disc Plough

Mounted disc plough built for hard, rocky, rooted and residue-heavy soil conditions where standard tillage tools struggle.

CULTIVATOR

Cultivator & Spring-Loaded Tine Implements

Durable cultivator tines and spring-loaded tillage components engineered for reliable soil tillage and field preparation.

DISC HARROW

Heavy Duty Hydraulic Disc Harrow

Hydraulically operated disc harrow for breaking clods and preparing a fine, uniform seedbed after primary tillage.

Rotavator Blades & Rotary Tillers

Premium blades and tiller units for soil cutting, mixing and land preparation

ROTAVATOR BLADE

L Type Rotavator Blade

Premium L-type rotavator blade engineered for efficient soil cutting and mixing, built to durability and performance standards required by export buyers.

ROTAVATOR BLADE

Heavy Duty Rotavator Blade Set

Heavy-duty blade set designed for long-lasting field performance and reduced wear on high-usage rotavators.

ROTARY TILLER

Xtra HD Rotary Tiller

Extra heavy-duty rotary tiller unit compatible with major rotavator brands, built for demanding land-preparation work.

SPARE PARTS

Plough & Cultivator Spare Parts

Durable plough shares, cultivator tines and related components engineered for reliable soil tillage and field preparation.

Pumps & Water Transfer

Reliable pumping solutions for irrigation and water movement

IRRIGATION PUMP

Agricultural Centrifugal Water Pump

Reliable centrifugal water pump for moving water to fields, tanks and irrigation channels, built for consistent agricultural use.

UTILITY PUMP

Water Transfer Pumps

Pump solutions for buyer-specific water movement, utility and general transfer requirements beyond field irrigation.

Pump models, flow rates and power ratings are configured to buyer specification. Share your required head, flow rate and power source (electric/diesel) for a tailored quotation.

Product Spec Sheet

Sample detailed specification, available for every product on request

Heavy Duty Land Leveler

Rugged tractor-mounted land leveler for field preparation and flood-irrigation applications.

Business Type	Exporter and Supplier
Product Category	Land Leveler
Model	Heavy Duty
Mounting	Direct tractor-mounted configuration for simple, reliable attachment
Blade Material	Constructed from special steel for enhanced strength and durability
Available Widths	Offered in 6, 7 and 8-foot working widths to suit varied field sizes
Primary Use	Engineered for efficient and reliable field leveling ahead of sowing and flood-irrigation setup

This spec sheet format is available for every product in our range. Contact our export team with a product name to receive the full specification sheet for that item.

Export Process

From inquiry to delivery, how we work with international buyers

Share your product category, required specifications, application, quantity and destination market. Our export team reviews the requirement and responds with detailed product information and a suitable quotation.

1

Send Your Requirement

Product type, specification/model, quantity and destination country via email, WhatsApp or the website inquiry form.

2

Review & Quotation

Our team reviews the requirement and shares product details, pricing and lead time for your review.

3

Confirm Order & Terms

Agree on quantity, packaging, payment terms and delivery schedule to confirm the order.

4

Production & Quality Check

Items are manufactured/sourced and checked for material strength, precision and finish before dispatch.

5

Packaging & Documentation

Export packaging, commercial invoice, packing list and shipment documents are prepared.

6

Shipment & Delivery

Coordinated shipment to your destination port with regular status updates.

Contact & Quotation Request

Reach our export team for pricing, MOQ and shipping details

Planning a bulk or import order? Share your product category, specifications, quantity and destination market — our team will get back with detailed product information and a suitable quotation.
